

Free COVID-19 Testing

[Free at-home COVID-19 Testing](#)

Testing is also available at local pharmacies, however, those that are uninsured will have to pay out-of-pocket costs.

Montclair Health Department offers *free COVID testing Mondays and Tuesdays between 8:30 a.m. and 12:30 p.m., 205 Claremont Avenue.*

Free PCR and antigen testing is available for those uninsured, but they will need to bring a form of ID. No appointment or pre-registration necessary.

In addition to the Montclair Health Department, free public testing/treatment is available at [Essex County Federally Qualified Health Centers](#). Please note that hours/days at these locations are subject to change, so calling ahead to ensure availability is advised.

Also see this additional list of local [pediatric testing sites](#).

Free, at-home COVID-19 saliva PCR tests are available to New Jerseyans who think they need a test.

Order your test by visiting learn.vaulthealth.com/nj.

Free, at-home rapid antigen tests are available from the federal government. [Order one set of 8 free at-home tests.](#)

For additional information on testing and treatment, visit the [NJ COVID-19 Information Hub](#).
